database semantics - springer - an essential characteristic of this shift is clearly defined semantics for multi media databases. this the eighth data semantics working conference (ds-8) focused on those issues that involve the semantics of the information represented, stored, and manipulated by multimedia systems. topics and issues covered included: data modeling and query languages for media such as audio, video, and ... **on the semantics of "now" in databases** - on the semantics of "now" in databases 119 which have included one or more free, current-time variables. chief among these current-time variables is "now" (e.g., [8, 25, 13]), but a variety of other symbols

oracle database semantic technologies overview - semantics abstracts unstructured content by extracting meaning from entities in underlying data and structuring it so it can be queried in a meaningful way

•rdf (resource description framework) is the standard for encoding this metadata into a **a formal semantics of sql queries, its validation, and ...** - generated queries and databases. we give two applications of the semantics. one is the first formal proof of the equivalence of basic sql and relational algebra that extends to bag semantics and nulls. the other application looks at the three-valued logic employed by sql, which is universally assumed to be necessary to handle nulls. we prove however that this is not so, as three-valued logic ...

semantics of database transformations - semantics of database transformations abstract database transformations arise in many different settings including database integrations, evolution of **what's the evidence? is colourful semantics an effective ...** - pubmed databases for colourful semantics or thematic role therapy. in addition to these health focussed databases, we also searched some key education databases- british education index, education research complete, and education resources information center. we looked for studies that evaluated the effectiveness of colourful semantics to improve language for children or young people with asd ...
